

Dear Chris,

I started wearing the socks on May 19, 2011. There was pain in my feet for about 12 to 15 years. My feet were numb and swollen. I had pain in the daytime. I wear the sock every night for 8 hours, now I have no pain during the daytime. I set the unit on level 50, they work great, I almost forgot how it was without pain.

Yours Truly,

Mary
