

Jan. 18, 2013

Dear Frank:

I haven't had a treatment @ NBO in several weeks. I continue to use the socks daily. My balance and stamina have improved to the point I'm back to cutting wood once more and am excited about the prospects of tending a great apple crop this year. As my wife said the other day, I'm doing things once ~~again~~ she thought I would never be able to do.

Frank, when I first sought treatment at NBO last Sep. I couldn't walk to my mail box without the aid of a walking stick. Now I'm following my New Beagle thru the brush chasing rabbits. I learned more ~~neuropathy~~ about neuropathy from you & the people @ NBO than ~~from~~ I did from the Neurologist who diagnosed me. Per your advice I am Nicotine Free since Dec. 5. My dad is going to be 90 in August and is still farming. I intend to do the same.

Best Regards - Tim
